

Brachiosaurus (Dinosaurs)

With life-like illustrations and simple text, books in this series introduce children to different dinosaurs and their unique characteristics. Children learn the features of each dinosaur, what they ate, and whether they were predator or prey to other dinosaurs. The books also introduce fossils and how they play a role in our knowledge of dinosaurs existence. In this book, children learn about the features of Brachiosaurus, what Brachiosaurus ate, and how it defended itself against other dinosaurs.
