

Get Started in Shares: Trading for the First-Time Investor (Financial Times Series)

Investing can be fun as well as rewarding. It could certainly earn you much more than you could gain by sticking your money in a bank account. It really does not require much to make money from the stock market - just an understanding of a few simple concepts and the following of a few rules. Written by the UK's most successful writer on investing, *Get Started in Shares* explains in very clear and simple terms what shares are, how they are traded and what to look out for as an owner of shares.

This is a straight-talking guide to the mysteries of investing that assumes no prior knowledge and will build up your understanding of investing in a series of easy steps.
