

Horses, Heartache and Healing

Horses, Heartache and Healing is an authentic story, written from the heart by a woman with great depth and wisdom. The story of wild born horses, rescued from drought and certain death is a fascinating tale. Elizabeth takes the reader on a first hand journey to Outback Australia and then into another realm of healing, personal growth and development through the way of the horse. In sharing her own experiences - the joy, laughter and tears - Elizabeth explains how interactions with horses can open up new pathways to recovery from trauma. This is a must read book for anyone who has experienced a unique connection with an animal in their life - Elaine Hughes, Director, Australian Equine Facilitated Learning Pty Ltd. The combination of a compelling and rather unusual story coupled with good talent as a writer and storyteller can produce a book that is not only a good read, but one that can inform, inspire and uplift those who read it. Horses, Heartache and Healing by Elizabeth Denniss is such a book - Franklin Levinson, International Horse Whisperer, Author, Founder of the Way of the Horse.
