

A Brief History of Time: An Interactive Adventure

Stephen Hawking's *A Brief History of Time* took readers to distant galaxies, Black Holes and alternate dimensions - and across centuries of scientific thought - to confront questions about the origin and nature of the universe. This interactive CD-ROM of the book contains the complete text. It also features excerpts from the Errol Morris documentary and includes new images and interactive animations. Minimum system requirements for Macintosh are: LCII, or faster, including Performa, Quadra and PowerMac Series; 256 colour monitor at least 13;8 MB RAM; system 7.0 or later; double-speed CD-ROM drive.
